the answer to this question appears to hang the guilt or innocence of Wils Folts and Jim Clark, two Dakots City men who were arrested yesterday by Deputy Game Warden F C Gilbert for fishing with nets in Jackson lake. When arrested the men had 18 buffalo fish in their possession and a net and did not deny that they had been using the net in the lake. At the trial which was held this morning in Dakots City, the defense stated that since Jackson lake is interstate water, the state law does not apply. The trial was postiponed until information could be obtained on this point. Game Warden Gilbert has determined to make a tost case of this matter.

Farm Land Sale

·An Opportunity Lifetime to Buy

Farm.

The above Farm Home, together with 200 acres of the finest farm land in the Corn Belt

Will Be Offered at Public Auction

Wednesday, Sept. 3rd, 1913

This land consists of a black, sandy loam, equal in quality to the best land on earth. Located as it is, only 6 miles from Sioux City, Iowa, and adjoining Dakota City, the county seat of Dakota Crunty, Neb.,—on the west, makes an ideal location fo a home and stock farm. Two railroads, one the C. & N. W., passing through the farm on an air line east and west and the other the C. B. & Q, only a block away, make shipping facilities unexcelled. A good high school and churches are within easy walking distance, and there is a direct street car line to Sioux City. A telephone service to Sioux City, free of toll charges, puts the stock feeder in easy touch with the market so that he may take advantage of market or weather conditions. The main traveled automobile highway between Sionx City and Omaha passes by this farm, and the roads in

There is no better general or special farming proposition anywhere in the corn belt than is offered by this farm. Yields of 90 bushels of corn per acre, 30 bushels o wheat and 50 bushels of cats have been made, while, with a proper rotation of slfalfa-which does remarkably well, yielding 5 tons per sers-and with live stock the above yields can be sorpassed. Hogs do remarkably well on this farm, disease of no kind havi g been on the place in twenty years .

The improvements on this farm are of the best to be found anywhere, as the above photograph will show A cordial invitation is extended to anyone who wishes to inspect this farm at any time previous to the sale and they will be shown every courtesy while here.
